Emlyn,

Here is the Temple-Main Campus RACT submittal. We'll tell them they
can't use recent BAT as an
argument that it meets RACT for their boilers over 50 MMBTU/hr.

For a cost analysis of adding SCR to their generators, they cite cost per
ton ranges derived from EPA and
Caterpillar documents. Can we use these for the cost analysis or do they
need one that is more source
specific?

by-Case RACT Update
Mr. Wiener:

On behalf of Temple University and Mr. Kurt Bresser, CMI has prepared the
attached Case-by-Case RACT
update reports for both the Main Campus and Health Sciences Campus. You
will be receiving hard
copies of these reports on Monday, March 31, 2014 via FEDEX.

If you have any questions, please feel free to give me a call.

Best regards,

Chris C. Maye, P.E.
